

Digital Indoor TV Antenna

Omni-direction Series

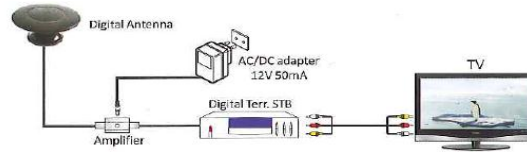

Model No.: DVB-T9009B
 120x120x50mm

Technical Specification

Model No.: DVB-T9009B

- Frequency range: UHF: 470-862MHz
- Receiving range: UHF
- Gain: 20dB Max
- Output Level: 100dBμV Max
- Impedance: 75 Ω
- Noise Figure: ≤3dB
- Power Supply: Via AC/DC adapter (DC12V/50mA)
 or via DTV set-top box(DC 5V/40mA)

Installation Instruction

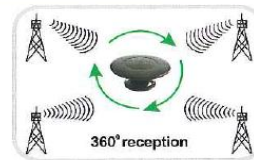

Non-scratch bottom to keep antenna standing on the table

The bottom air-sucker (max. weight capacity: 5kg) can make the antenna sucked on any smooth object, such as LCD TV, windows, ceramic tile...

Product Features

- SMD circuit technology design
- Shielded for minimum interference
- With external high gain and low noise amplifier
- Portable for mobile use (camping, boating, etc).
- Support all digital and analog signals in UHF channels
- Specially compatible with HDTV of various digital terrestrial signal.(DVB-T; ISDB-T; DMB-T/H; ATSC).

Omni directional characteristics provide excellent non-adjustments reception in 360° directions
